

MEANINGFUL YOUTH ENGAGEMENT & SKILLS ENHANCEMENT POST-COVID19

Date: August 30, 2021, Time: 12:00 PM – 02:00 PM (Saudi Time) Venue: Virtual Event

The Youth Development Forum (YDF) is a flagship annual standing event that takes place on the sideline of the IsDBG Annual Meeting. This year's YDF is made up of two parts. The first part brings together influential thinkers, policymakers, international development policy experts, and most importantly youth delegates to address, discuss and debate critical issues of relevance to meaningful youth engagement.

Youth is society's most essential resource, with the potential to contribute significantly to socio-economic growth and development. However, many remain unemployed and unengaged. The issue of youth economic empowerment has been addressed in many of the past YDFs, adopting various perspectives to the issue. However, this year the YDF will focus on Youth Engagement. A 2020 UN report reveals that although young people are some of the most affected by the pandemic's socio-economic impacts, they are also among the most active in global responses as frontlines as health workers, researchers, activists, innovators, and communicators.

The post-COVID-19 era will require immense creativity and resilience. Young people, as changemakers in various fields and areas of specialty are playing a crucial role in ensuring that developmental and socioeconomic agendas are resilient, equitable, and adaptable. Being digital natives, young people are pivotal in efforts to innovate, advocate, mobilize, and spearhead COVID-19 recovery initiatives through social media platforms and utilizing technology to advance healthcare efforts. As such not only do young people have a right to, but it is of utmost urgency to engage youth actively and meaningfully in all matters that affect their lives.

The second part of the YDF will be dedicated to highlighting the importance of partnership by launching the IsDB-UNDP Joint Knowledge Products "State of the Ecosystem for Youth Entrepreneurship and Youth-led MSMEs in Bangladesh and Indonesia".

KEY ISSUES TO BE ADDRESSED

1. The role young women and men play in advancing the development agenda.
2. Frameworks for meaningful youth engagement that development institutions are using to ensure effective youth engagement.
3. Meaningful youth engagement and its impact on youth prosperity and economic empowerment.
4. Differentiate between meaningful vs tokenistic youth engagement.
5. Examples of effective youth-led recovery efforts post COVID-19.
6. Key skills for young people to acquire to enable them to engage effectively with their community and other stakeholders.
